DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on Aug 6, 2004 has been entered.

Allowable Subject Matter

2. Claims 1-39 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Neither prior art of record nor references teach a bicycle stem comprising a handlebar clamping portion on one end and a steering tube clamping portion on the other end opposite the one end, wherein a steering tube clamp that is received in the steering tube clamping portion comprises a pair of cooperating clamping members having a recess for the steering tube and a central longitudinal axis defining the shape of the clamping members as a circular cylinder, as recited in claims 1, 17, 24, and 33; and particularly, wherein at least one fastener receiving passageway formed in each clamping members to receive at least one fastener is offset from the

Art Unit: 3682

central longitudinal axis as recited in claims 1, 17, and 24; and wherein the fastener receiving passageway is canted at an angle from the axis of the cylinder as recited in claim 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Election/Restrictions

4. Claims 1, 17, 24, and 33 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 7, 11, 14, 16, 23, 32, and 39, directed to the species of Figs. 10-18 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
